Wharton Graduate School of Business - Selected Courses in Advance Corporate Finance (non-degree MBA 1989-1991)
University of Pittsburgh, School of Engineering (Bachelor of Science in Civil Engineering 1988)

EXPERIENCE

Former In-House Counsel for Publicly Traded Vertically Integrated Energy Company and Former In-House Counsel for EPC Energy Contractor

Over 30 years' career experience specializing in International Energy and Construction Projects. Work includes international transactions, international development, construction, development, finance, contract, and international law primarily representing U.S multinational Energy Companies (and Utilities), and Energy EPC Contractors, involving development and construction of public and private projects (industrial and institutional) ranging in value from \$120 million to \$700 million. Government and multi-lateral lending agency experience includes representing Energy Companies and/or EPC Contractors in contract negotiations with foreign and domestic government agencies in connection with the construction of power plants, electric generation facilities, Natural Gas, LNG, LPG, industrial park steam generation facilities, waste to energy facilities, gas transportation pipeline projects, methanol production facilities, peaking power plants and water desalination plants among others. Handled disputes related to performance guarantees, substantial completion, guarantees, buy-downs, warranties, letters of credit, financial obligations and bonding issues, differing site conditions, change orders, and design defects. Experienced in issues relating to: Shareholder's Agreements, Joint Venture Agreements, Concession Agreements, bi-furcation, taxation issues, foreign & host governments, Foreign Corrupt Practices Act, on-shore & off-shore contracts, repatriation, and foreign currency.

Majority of career experience is concentrated in International Transactions and International Development, Energy, Oil and Gas, Generation, Transmission and Distribution for publicly traded international energy development companies. Served as In-House Corporate Counsel for large vertically integrated energy/infrastructure development companies operating worldwide (\$10B) in the development, ownership, and operation of electric generation facilities, oil and gas exploration and production, and natural gas transmission, distribution, storage, and processing.

Also served as In-House Corporate Counsel for publicly traded design/build turnkey contractor specializing in co-generation facilities, combined cycle power plants, steam generator installation, waste heat energy recovery equipment ("HRSGs"), wood-fired and other alternate energy facilities, fluidized bed boilers, coal facilities, incineration systems, pulp and paper mills, wood waste, waste to energy, and emissions control equipment. Extensive experience in the drafting and negotiation of "EPC" (engineering, procurement and construction contracts) agreements both from Owner's side and Contractor's side.

Work included projects involving Natural Gas, LPG, LNG, Methane, Methanol, Coal, wood waste and other waste, and others. Experience also includes Distribution, Transmission, Pipeline, Gas Supply, Shareholder Agreements, Buy-Sell, Joint Development, Joint Operating, and Joint Venture Agreements, Turnover, and Operation and Maintenance (O & M) Agreements, Equity Participation Agreements, financing and debt agreements. Shareholder Agreements and/or Joint Venture Agreement experience includes experience with covenants not to compete, anti-circumvention, rights of first refusal, capital calls, and buy-sell issues.

Work also included construction of pipeline, gas transmission, interconnections, specifications for pipeline, gas transmission, conversion to wire, and distribution. Negotiated Greenfield projects, land leases in varying

forms, concession agreements and tax concessions and tax abatements with foreign governments. Negotiated Power Purchase Agreements, Pricing Agreements, Gas Supply, Take or Pay and Fuel Supply Agreements, fixed long term oil & gas contracts, and specifications for fuel. Worked on waste to energy, wood waste, methane, barge waste, coal, methane and methanol projects. Worked on co-generation, combined cycle, simple cycle, gas and steam generation projects and hydroelectric projects. Worked on development of projects for Independent Power Producers (IPPs). Worked on projects that sold to the spot market. Experienced with milestone payment schedules, performance guarantees, capacity, buy-downs, emissions, liquidated damages, completion dates, sunset dates, substantial completion, contractor substitution and termination issues, termination for convenience, termination for cause; non-performance, environmental issues, additional work, unforeseen conditions, time and expense (T & E), and delay damages.

Experienced in E-Discovery for large complex disputes in energy and construction cases.

Some experience in mining, petrochemical refining, processing facilities, water treatment, environmental issues, and renewable energy including wind and solar energy.

Experienced in real estate matters involving vacant land, multi-units, and condominiums. Served in various technical engineering capacities in construction, inspection, and design including bridge renovations, fiber optic cable layout, highway roadwork, drainage, concrete, reinforcements, traffic signals, foundations, and dam stability analysis. Read plans & drawings, and familiar with standards, codes and international guidelines.

ALTERNATIVE DISPUTE RESOLUTION EXPERIENCE: REPRESENTATIVE CASES

Professional career as a neutral arbitrator, as either sole, Co-Arbitrator, or Chair Arbitrator on international, construction, energy and commercial cases. Arbitration experience includes disputes concerning international cases, industrial facilities, oil and gas facilities, energy facilities, processing facilities, infrastructure construction projects, harbors, marinas, large mixed use facilities, multi-unit residential complexes, and multi-party owner-contractor-subcontractor disputes. Arbitrator experience in numerous other construction disputes including contract terms and conditions, change orders, delays, design defects, deficiencies, liquidated damages, warranties, guarantees, etc.

-Selected Chair Arbitrator on Energy and Utility Arbitration with three-person panel regarding construction and installation of Gas Lines traversing several jurisdictions. Case involved complex construction issues, technical issues regarding installation and means and methods and E-Discovery. (Various Projects in excess of \$100M).

-Party Selected Arbitrator on International Energy Arbitration for dispute regarding Electric Utility company and construction and installation of gas related facility and appurtenant facilities. Multiple jurisdictions including Kazakhstan and United States. (Project range \$300M).

-Party Selected Chair Arbitrator for construction and installation of electrical related services and electronic systems for Government Building and Construction of Courthouse. (Project cost \$350M).

-Party Selected Arbitrator on International Arbitration for dispute regarding transfer of technology and manufacture of products with chemical compounds and raw materials, Joint Venture and the Development and Construction of new facilities. Dispute involved issues of breach of contract, shareholder agreement, licensing, transfer of technology, infringement, failure to meet specifications, accounting, letters of credit and shareholder contributions. Case involved multiple jurisdictions in Latin and South America including Brazil, and the United States. (Various projects up to \$300M).

-Party Selected Chair International Arbitrator on an International Arbitration with three-person panel involving a shareholder dispute regarding the construction and development of a high end large scale resort-style development the Caribbean. Issues included shareholder issues, damages for delay, completion issues, construction of seawall, sale of assets, financing, and various holding companies and subsidiary companies in multiple jurisdictions. Case involved multiple legal jurisdictions including France, St. Marten, Holland, and United States. (Project in excess of \$25M)

-Selected International Arbitrator on three person panel for ICC International Arbitration of a dispute concerning the design, specifications, construction and performance of an industrial processing facility for petrochemicals. Case involved technical issues, performance issues, completion issues, damages issues, technology purchase agreement and multiple parties in various foreign jurisdictions including Mexico, Belgium and Germany. (Project in excess of \$100M)

-Party Selected International Arbitrator on three person panel for ICDR International Arbitration of international dispute concerning the financing and development of electrical systems to power large scale mining operations in Argentina and Chile. The case involved multiple jurisdictions including Argentina, Bolivia, Chile and the United States. Governing law was Florida Law. Issues concerned valuation of compensations of services, financial valuations, accounting issues, delays, costs of delay, impacts to scheduling and owner interference. (Claims in excess of \$20M)

-Party Selected International Arbitrator on three person panel for CPR International Arbitration of an international commercial dispute involving licensing, technology, distribution, development, and joint venture. Issues concerned rights under licensing agreement, distribution agreement, payment obligations, letter of credit, and other financial guarantees and obligations. Jurisdictions involved Brazil and the United States. (Claims under \$10M)

-Chair Arbitrator on three person panel for energy and investor case involving dispute of commercial biofuel refinery. Dispute involved issues of assets, collateral and stock securing the transactions involved in the controversy as well as senior debt and line(s) of credit for the facility. Case involved multiple legal jurisdictions including Texas and several other states. (Project in excess of \$100 M)

-Party Selected Chair Arbitrator on three person panel for an Arbitration regarding a dispute over an agreement for the design, construction and performance of a facility built by contractor for a governmental related entity. Case involved contractor, supplier, governmental specifications, defects, deficiencies, changed conditions, delay, damages and performance. Case involved multiple jurisdictions including Texas and several other states. (Project range \$150M).

-Arbitrator on three-person panel for case between two multi-national contractors involving the marine and infrastructure improvements and a harbor in the Caribbean. The case involved issues of hydraulic dredging operations, changed conditions, equipment, labor, general conditions, delay damages, lost productivity, impacts, mobilization and demobilization, and inefficiency. Case involved work conditions and site related and equipment issues in the Caribbean. Jurisdictions involved included Norway and United States.

-Arbitrator on three person panel for Arbitration concerning a joint venture and the construction of a major bridge between Maryland and Virginia. Case involved issues pertaining to phased construction, labor disruption, loss of productivity, extended conditions and equipment, back charges, mark-up, extended overhead, change proposals and delay damages. Other issues included transportation, tugs,

barges, waterway transport, transportation schedules and shipyard operations.

-Arbitrator on three person panel for case involving the design and vertical construction of a multi-level mixed-use, retail, residential and parking project. Case involved damage claims, phased construction, delay damages, liquidated damages, cost to complete, warranties, set offs, pass throughs, change orders, lost profits, time extensions, value engineering, liens, surety issues, financing, and bonding issues.

-Party Selected Sole Chair Arbitrator concerning contractual breach between contractor and owner regarding the contraction of facility for owner.

-Sole Arbitrator on arbitration concerning the construction relating to a Marina facility including dry dock and maintenance facilities. Case involved issues pertaining to change orders, substantial completion, cost of completion, delay, and set-off.

-Arbitrator on three person panel for case involving large scale construction project of high rise structures and hundreds of residential units. Case involved owner, contractor and in excess of twenty (20) subcontractors, pass through claims, warranty claims, completion issues and damages.

-Party Selected Arbitrator on industrial facility construction dispute between owner and general contractor regarding performance guarantees, warranties, delay claims, and subcontractor liability.

-Sole Arbitrator on arbitration concerning a dispute between an owner and a contractor involving the construction of a retail facility with mixed use vertical construction.
